### New Market Basket Store 50th For Chain, Official Reveals

Opening today of a Redondo Beach store makes Market Basket a chain of 50 stores, company officials announced. Widely recognized as one of America's fastest-growing food retailers, the chain began with one store in 1930 in Pasadena. Within two years after the founding, Market Basket opened seven more stores, attesting to the popularity of the firm's policy of good food at low prices.

... ..

ORIGINALLY confined to the sale of grocery items, the company introduced a department of health aids, toiletries and sundries in 1933. Six years later it purchased the fruits and vegetables departments which were formerly run as a concession. Not long after, meat sections of the stores were brought under the management of Market Basket.

... ..

MEANWHILE, company officials realized that a large central warehouse and office could more efficiently supply the increasing number of stores, and for that purpose constructed quarters an Arroyo Parkway. In 1948 the pressure of expansion forced a second move, this time to a 12-acre site on Eastern Ave., near Slauson in Los Angeles.

A produce warehouse was built that year in the heart of the Los Angeles produce market district.

... ..

SERVICE facilities of the company include warehouses for groceries and produce, a central office and a large delicatessen kitchen.

Founded as a partnership, Market Basket in 1938 filed articles of incorporation with all stock being held by company employees. All stock continued to be held within the company until 1945 when revised articles of incorporation were filed and stock made available to the public. Today, the company is owned by nearly 4000 stockholders, mostly Southern Californians.

... ..

THROUGHOUT its history there has been little change in the management of Market Basket. Neal D. Ramsey, who has been president of the company since 1946, started as a store manager within a few months after the founding of the company.

Many of the people who worked in the first stores are still numbered among the company's employees and practically every store manager and supervisor in the organization began as a box boy or clerk.

The "Stemwinders," composed of persons employed for 15 years or more by Market Basket, now numbers 90 persons.

### Technical Illustrators at ECC Sweep Top Awards at Exhibition

"Each of nine entries submitted by El Camino College students to the annual exhibit of the Technical Illustrators Management Assn. was awarded a blue ribbon and certificate of merit," Al Thomas, technical illustration instructor, announced this week.

Students whose work was honored were John Rinde, Francis Weidenbener, Mrs. Dolores Briej, Mrs. June Hunter, Carl Sundstrom, William Mikkelsen, Henry Uyeda, Clyde Vitelli, and Gary Runnals.

... ..

THE EXHIBITION, now on display at the Los Angeles County Museum of Science and Industry, is open to both professional illustrators and college students on a national and international level. Displays are received from Europe, Canada and Asia.

"Technical Illustration," Thomas explained, "has many aspects, but one of its primary functions is the creation of three dimensional drawings of mechanical and industrial subjects."

... ..

ILLUSTRATIONS submitted by El Camino students to the exhibit were three dimensional representations of subjects in the aircraft industry and related mechanical areas.

Thomas, who also serves as educational adviser to the Association, is the author of the recently published textbook "Technical Illustration." The text, first of its kind in this field, has brought Thomas letters of commendation from educators and professionals in many parts of the world.

... ..

Carson Road Work Voted

Three roadway improvement projects in the Carson area have been scheduled by the Los Angeles County Road Department to begin this week, according to Supervisor Burton W. Chace.

The existing pavement on 223rd St., westerly of Meyler St. and on the west side of Main St. southerly of 236th St. will be extended to join recently constructed curbs and gutters.

The third project is resurfacing of 228th St. between Main and Dolores Sts.

Supervisor Chace pointed out that 223rd and Main Sts. are County Master Plan Major Highways. Recent traffic surveys by the County Road Department in this vicinity show a daily count of 6000 vehicles on 223rd St., approximately 10,000 vehicles on Main St. and more than 2000 vehicles on 228th St.
